

MANUAL CONTROL SMART  
TOILET SEAT WITH DUAL WASHLET  
BIDET/HYGIENIC SPRAY

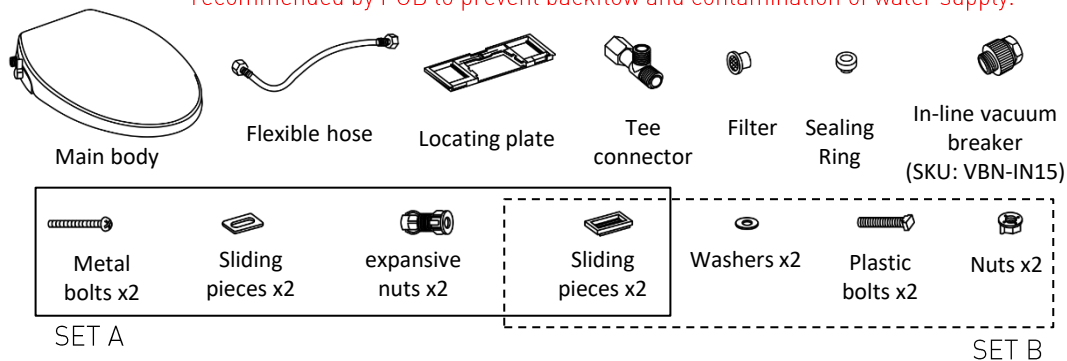

SKU:DSWWWL

**Please read carefully the instruction manual before the installation...**

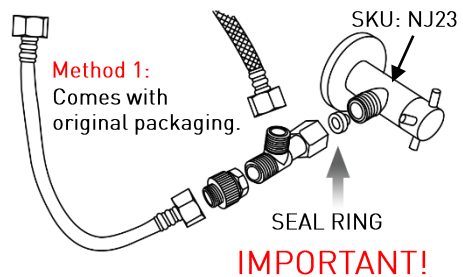

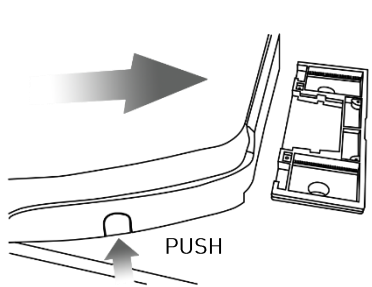

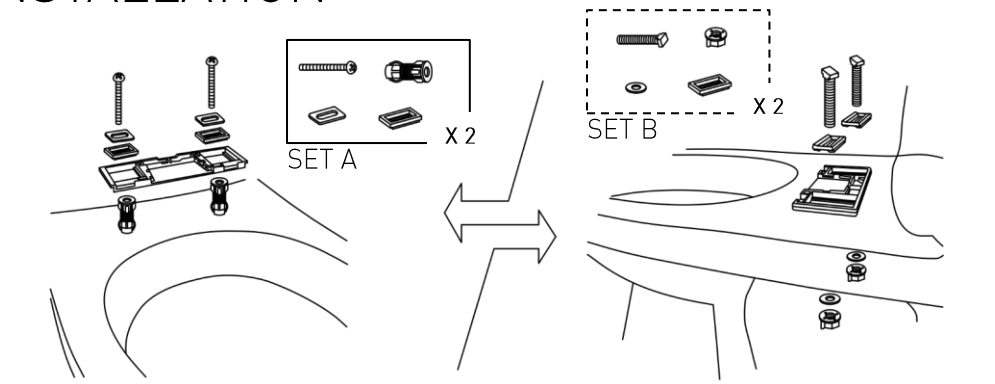

- The water pressure should be between 0.08MPa-0.8MPa.
- Please use the parts that are provided in the package
- For installation safety, please follow this instruction manual.  
And keep the manual after the installation for future use.
- Our company will not be liable for any damages caused by any misuse or misconduct of our product.

# PARTS

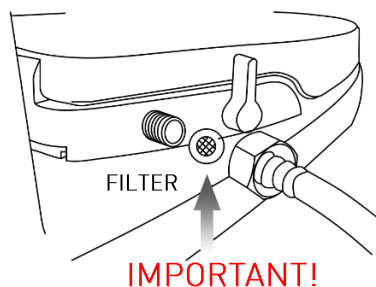

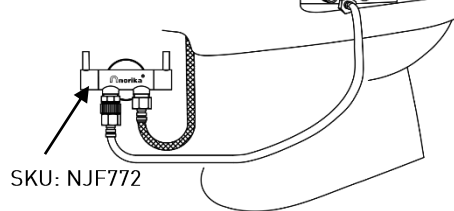

Our washlet comes with in-line vacuum breaker (worth \$30). This is recommended by PUB to prevent backflow and contamination of water supply.

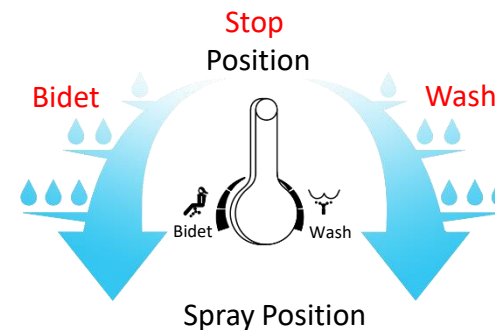

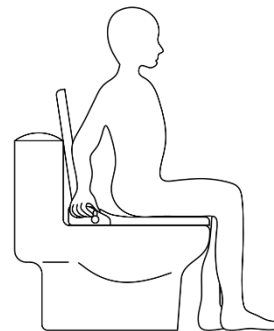

# INSTALLATION

**Method 2:** Simple and easy to install! All you need is the NJF772 and a short flexible tube. Gives off a neater and more modern aesthetic.

# HOW TO USE

# MAINTENANCE & CLEANING

# SELF-DIAGNOSIS
